Who's eligible?

Are you under the age of 65? You can apply for coverage for any or all of these benefits.

Portable life insurance

Life insurance pays out a one-time, tax-free payment when you die. It can help your loved ones with life's extra expenses. This includes ongoing payments such as bills, a mortgage or student loans.

Portable accidental death and dismemberment insurance

AD&D insurance pays a one-time, tax-free benefit if you have an accident resulting in death or loss of limbs, use of limbs, sight, speech or hearing. You're covered anytime, anywhere – whether at work, at home or on vacation.

Portable critical illness insurance

Life insurance pays an amount of money upon death. Your health care plan may cover your medical expenses. But critical illness insurance does more. It provides a lump sum payment if you're diagnosed with one of the covered conditions. You may have to wait a set period of time depending on your condition. You can use the payout for needs like private nursing or medical care, modifications to a home, or childcare costs.
